Exploring LEGO Sets: Price, Pieces & Themes

Trevor Francis, Conor Eunson, Aditya Ragulan

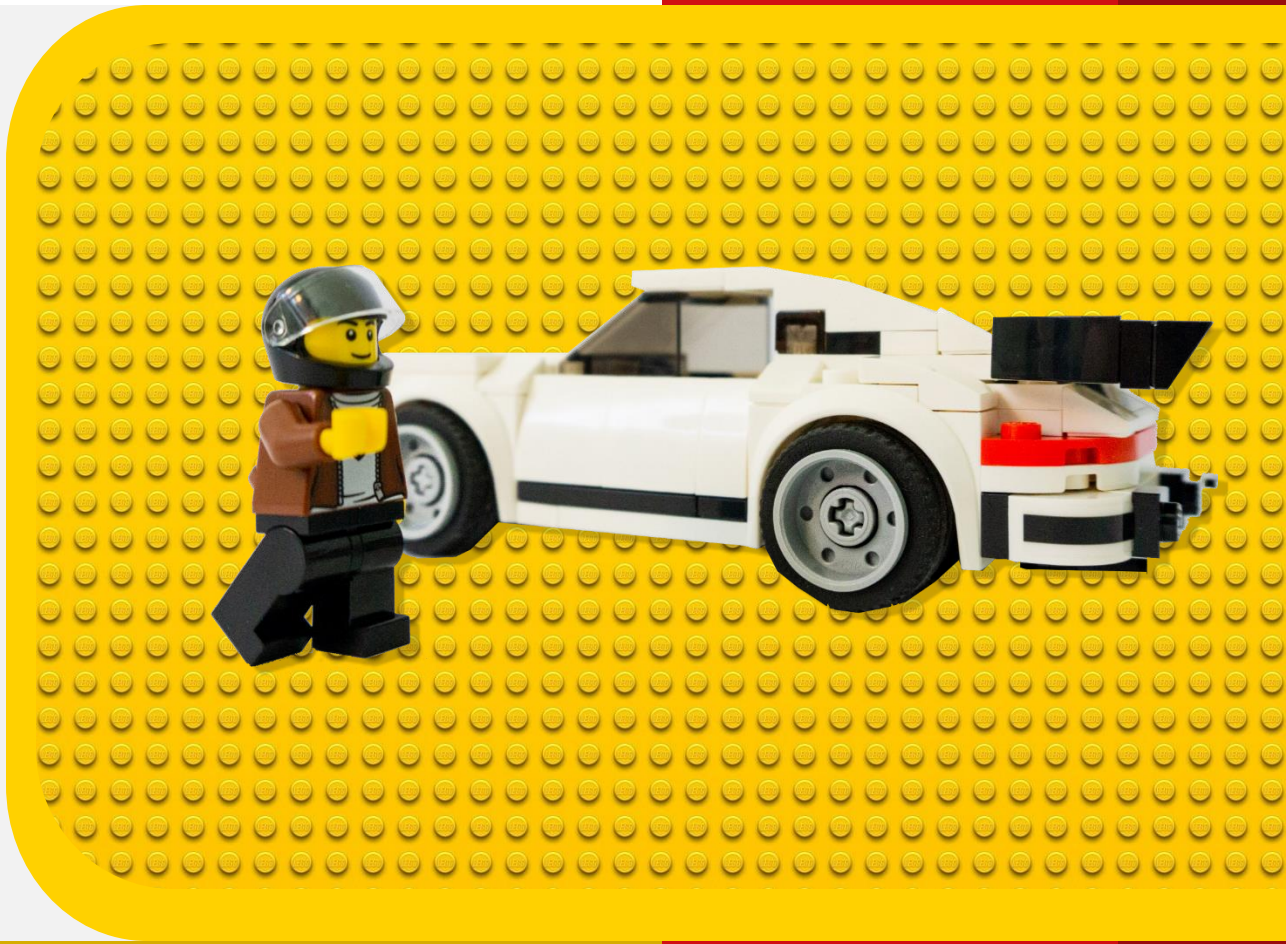

Dataset Introduction

Dataset from Maven Analytics containing details on LEGO products (1970–2022) such as set names, themes, year, pieces, price, and age range.

providing a comprehensive view of LEGO’s evolution over time.

Source: Maven Analytics

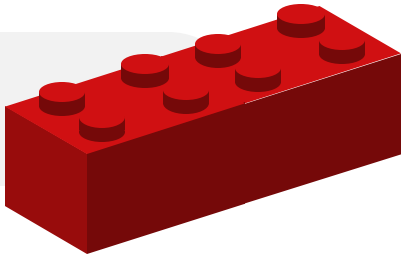

Dataset Overview Table

Feature	Type	Example	Description
set_id	Categorical	7236-1	LEGO item number
name	Text	Police Car	Set name
year	Ordinal	2005	Year of release
pieces	Numeric	59	No. of pieces
US_retailPrice	Numeric	5.99	Price in USD

Dashboard Goals

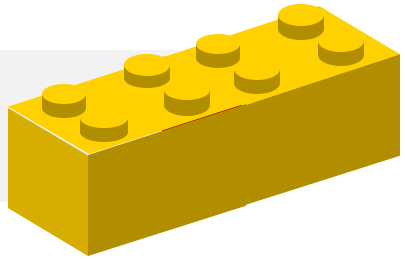

Explore LEGO Data Trends

Uncover how LEGO sets have evolved over time from simple builds to complex, **high-piece** collector models.

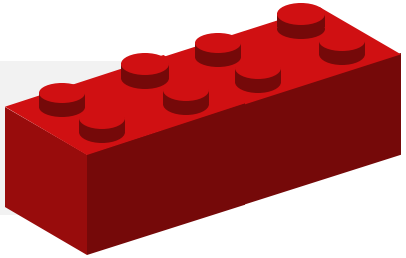

Analyze Key Product Factors

Understand how features like **price**, **pieces**, and **theme** relate to each other and influence a set's value.

Interactive Experience

Power BI dashboard that is **fun** and **interactive**, bringing the creative spirit of LEGO into data storytelling.

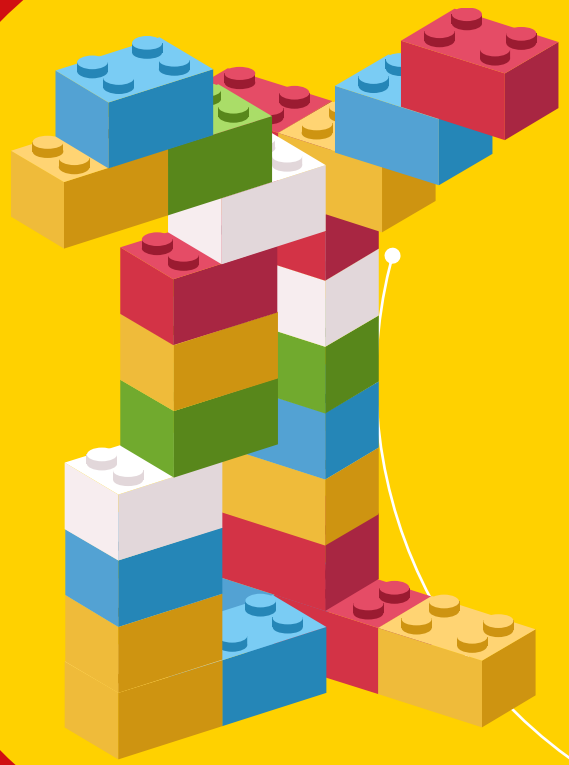

Dashboard 1: Growth & Overview

- Visualizes LEGO's growth journey from the **1970s** through **2022**.
- Tracks how the number of **sets** and **themes** expanded over time.
- Interactive slicers let users filter by **year**, **theme**, and **category**.
- Reveals milestones in LEGO's history where innovation and variety rapidly increased.
- KPIs for total **minifigures** and **pieces**, along with a Word cloud for frequent LEGO **set names**.

Dashboard 2: Pricing, Pieces & Product Insights

- Analyzes LEGO set prices, piece counts, and minifigures across major themes.
- Displays key metrics such as Average **Price**, **Pieces** and **Minifigs**.
- Pie chart to show price distribution across **Low**, **Medium**, and **High** categories.
- Line charts track **price** and **piece trends** over time, revealing steady growth since the 1990s.
- Highlights premium franchises like **Star Wars**, **Harry Potter**, and **Marvel**, which drive higher prices.

Interactivity Features

Dynamic Filters & Slicers

Users can filter by theme, year, or age range to customize how they view pricing and set complexity.

Navigation Buttons

LEGO-themed buttons at the top let users access LEGO's online shop for added realism.

Theme Selection

Page 1 : Dropdown Menu

Page 2 : clickable minifigures to change the theme accordingly

Insights & Key Takeaways

Affordability | Most LEGO sets are priced under **$50**

Growth Over Time | LEGO’s set releases have surged since the **2000s**

Popular Themes | **Miscellaneous** and **Licensed** dominate LEGO’s collection

THANK YOU
